Boston Globe's Daily Shopping Tip

Bugs be gone

For those who don't like squishing mosquitoes but don't want to be covered in itchy welts, the **Bug Bam!** wristband is the perfect accessory. The bracelet's plant oils mask smells that attract insects (including body odor, sweat, food, perfume, and hair products) and keep those blood thirsty bugs at bay. No killing necessary. The soft plastic band can be used for up to 100 hours after it has been exposed to air; unopened, the product will last for up to two years. Available online in adult and child sizes. www.bugbam.com
